About the Artist

Chris Stone (b. 1950) is one of Australia's most influential textile designers, known for his bold, expressive surface designs across bed linen and homewares. After relocating from Milan to Melbourne in 1984 to join Sheridan as Design Director, Chris played a pivotal role in expanding the brand from a domestic favourite to an international name featured in over 50 countries.

Based in Sydney since 1987, he pioneered colour forecasting reports that shaped furnishing trends across the industry. Alongside his commercial success, Chris has spent over 40 years mentoring textile students, generously sharing his expertise with the next generation of designers.

When local demand for hand-painted work declined, Chris returned to painting — creating vibrant Australian scenes filled with flowers, birds and native landscapes. Now part of the Australian Museum of Design collection, his works reflect a deep connection to place and a lifelong dedication to creative practice.

About the Australian Museum of Design

The Australian Museum of Design (AMoD) is a cultural initiative founded to preserve, honour and revitalise Australia's design legacy, and to share it with the world. At its heart is a growing archive of more than 10,500 hand-drawn surface designs created by Australian artists across the 20th century, many of which have never been seen publicly until now.

AMoD exists to make this rich history accessible for study and for everyday use. From wallpaper and textiles to digital licensing and design exhibitions, we bring historical designs into modern homes, commercial interiors and creative projects. Each work is carefully digitised and restored, ensuring the artist's original intent and craft are respected while enabling new forms of expression and appreciation.

Our purpose goes beyond preservation. We are building a bridge between generations, where the imagination, skill and stories of Australian artists are no longer confined to archives, but reintroduced as part of a living, design-led conversation. Through collaborations, education and commercial partnerships, AMoD supports both the cultural and economic value of Australian design, championing creators past and present.

Whether it's through curated wallpaper collections, designer features, or licensing support for brands and makers, AMoD is helping to define a new chapter in the story of Australian visual identity that honours the past while creating opportunities for the future.

Meadow Press

Wallpaper by Chris Stone

Meadow Press is a vivid and celebratory floral wallpaper design by Chris Stone, originally painted with exceptional detail and warmth. Featuring a pressed bouquet of wildflowers gathered from field and garden, the design bursts with energy, a dense, joyful composition of morning glory, gerbera, snapdragon, petunia, and daisy forms, all layered in soft watercolour tones.

The layout mimics the effect of botanical pressing, with blooms overlapping and lightly flattened, as though preserved between pages. Each flower is rendered with painterly precision petals curling, edges softened, colours blending and evoking the careful observation of traditional botanical studies while maintaining the expressive flair of Chris Stone's surface design work.

The palette is lively and balanced, with reds, yellows, pinks, purples, and blues scattered across a warm cream ground. This intentional diversity gives Meadow Press its unmistakable vibrancy, while the natural rhythm of the arrangement keeps it grounded and harmonious.

Created in the late 20th century, this design reflects Stone's gift for capturing floral abundance without rigidity, a quality that made his work beloved across both fashion and interiors. Now reissued by the Australian Museum of Design, Meadow Press brings the vitality of spring into contemporary homes. It is ideally suited to sunrooms, kitchens, garden-facing rooms, or any interior that seeks to feel generous, optimistic, and full of life.

Non-woven Wallpaper

The Advantages of Non-Woven Wallpaper

At AMoD, we use premium non-woven wallpaper for all our designs, combining durability, ease of use, and environmental responsibility.

Eco-Conscious & Certified

Our non-woven wallpapers are made from a blend of natural and synthetic fibres sourced from FSC Certified Forests. They are printed using water-based inks and contain no vinyl, making them 100% earth-friendly and a safe, sustainable option for any space.

Fire Rated for Safety

All AMoD wallpapers are rated Class A / Group 1, which is the highest standard for fire safety in both commercial and residential applications. This makes them a trusted choice for homes, offices, retail spaces, and other interiors where compliance is key.

Breathable to Reduce Mould & Mildew

Thanks to the breathable nature of non-woven materials, moisture doesn't get trapped behind the wallpaper. This helps reduce the risk of mould and mildew, making AMoD wallpapers particularly suitable for bathrooms, kitchens, laundries, or any humid environment.

Paste-the-Wall Simplicity

Installation is straightforward and mess-free. With non-woven wallpaper, there's no need to soak the paper. Simply apply paste directly to the wall.

Because the fibres are non-porous, they won't absorb moisture from the adhesive, meaning, no expansion or shrinkage. Panels hang true and flat, speeding up the installation process.

Precision-Cut Butt Joints

AMoD wallpaper rolls are manufactured with butted seams, meaning there is no overlap. Panels are trimmed perfectly to allow for a clean edge-to-edge alignment, ensuring a seamless visual result and easier installation for professionals and DIY users alike.

Cleanable Finish

The surface is lightly washable, allowing dirt, dust and most everyday marks to be wiped off using a damp cloth and mild soapy water. It's perfect for spaces where design needs to meet practicality.

Durable & Tear-Resistant

Non-woven wallpaper is exceptionally strong and stable, both during and after installation.

It won't tear when pasted, moved, or smoothed into place and resists damage when removing or repositioning panels. This strength is particularly helpful when aligning detailed or large-scale designs.

Easy to Remove Without Damage

When you're ready for a change, AMoD wallpapers can be peeled off cleanly in full sheets — no steaming, no scraping, and no damage to your walls. This makes non-woven wallpaper ideal for renters, renovators, and designers who value both beauty and flexibility.

Roll Dimensions

Each wallpaper roll is 61.5 cm wide x 10 metres long, covering 6 square metres per roll. This sizing is equivalent to a standard US double roll, making it compatible with most industry calculators and installation guides.

CERTIFICATIONS

This wallpaper has obtained the following Fire and Flammability classifications.

North America

"Class A" for ASTM Designation E84-15a. Comparable to UL 723, ANSI/NFPA No. 255 & UBC No. 8-1.

Building Codes Cited:
